

premier design meets exceptional sales potential

The completely redesigned Prestige IAQ from Honeywell still offers the robust RedLINK™ wireless capabilities you trust to deliver a total solution — now in a smaller, sleeker profile for design-conscious residential and light commercial end users.

NEW HIGH-END AESTHETIC

- **Smaller and sleeker** — 60% smaller footprint
- **Full-color display** — Customizable and high-definition
- **Frame options** — Choice of high-gloss acrylic colors

SAME COMMERCIAL FUNCTIONALITY

- **Easy remote management** — Monitor and control multiple buildings from a computer, tablet or smartphone
- **Self-monitoring diagnostics** — System sends alerts for maintenance or service issues

ON-SCREEN INTERACTION FOR FASTER, EASIER SERVICE

- **Intuitive install** — Question-based setup eliminates the need for a manual
- **Alerts log** — Stores 25 alerts to help technicians easily determine what part of the system needs attention
- **System performance log** — Min/max indoor/outdoor temperatures, humidity, run time, Delta T and more organized by hour, day, week or month

CUSTOM ALERTS AND DIAGNOSTICS HELP BUILD BUSINESS

- **Delta T** — Provides alerts and diagnostics when system needs service
- **Four assignable inputs** — Connect wired sensors, remote setback or dry contacts
- **Pre-populated dealer info** — Contractor contact information available with the touch of a button, driving repeat business
